

Removing an athlete from TrainHeroic

Use this when a member leaves or pauses. It takes about a minute, and every step is shown below with the button to click circled.

- 1 Log In
- 2 Sign in
- 3 Teams
- 4 Three dots
- 5 View Athletes
- 6 Tick, then Archive or Remove
- 7 OK

1 Open TrainHeroic

Go to trainheroic.com and click **Log In** in the top right corner.

2 Sign in with the TAC team account

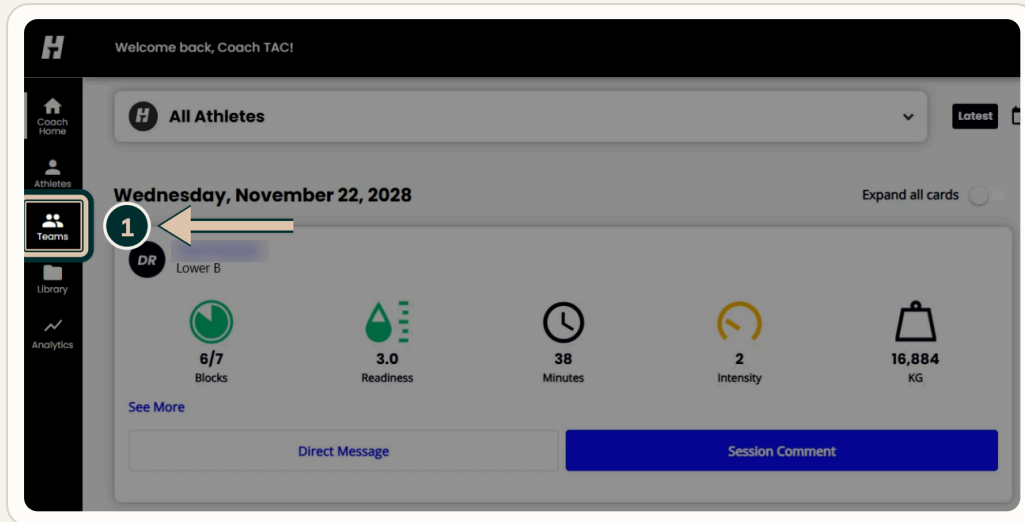

- 1 The team email and password are saved on the gym computer, so they should fill in by themselves.
- 2 Click **Log In**.

The password is deliberately not written in this guide. If it doesn't fill in, ask Chris.

3

Go to Teams

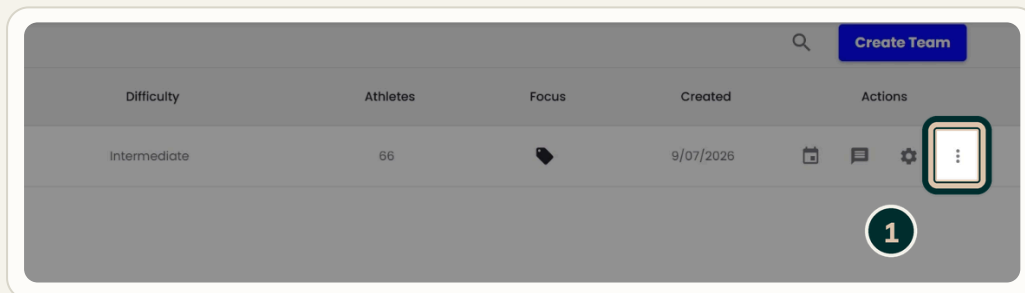

You'll land on the **Coach Home** dashboard. Click **Teams** in the black sidebar on the left.

4

Open the team menu

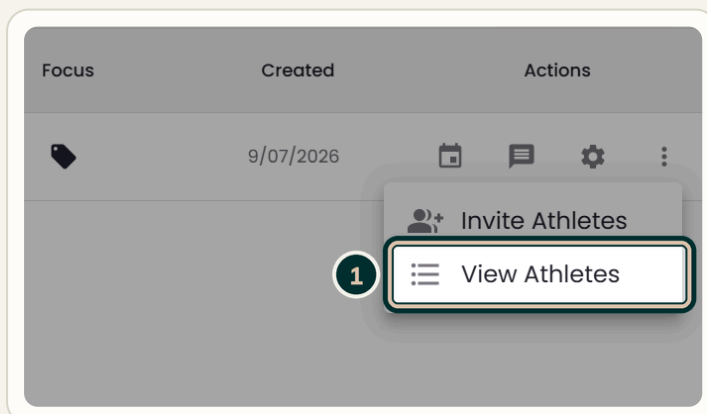

On **My Teams**, find **Teneriffe Athletic Club Strength** and click the **three dots** at the far right of the row.

5

Click View Athletes

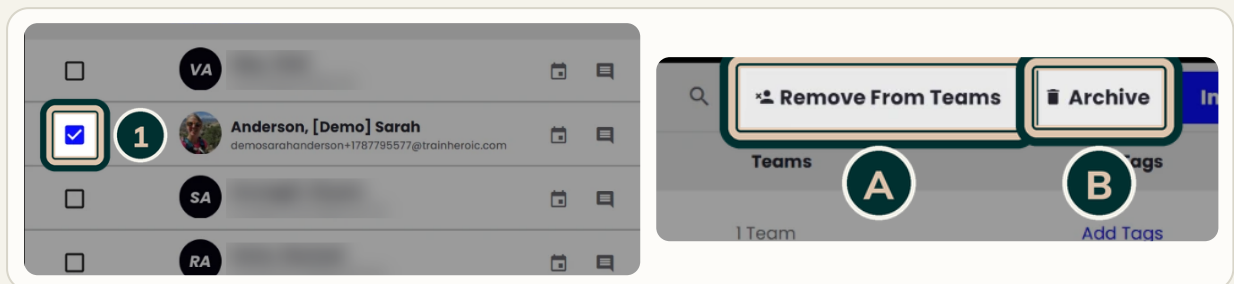

From the menu that pops up, choose **View Athletes**.

6

Tick the athlete, then Archive or Remove

1 Tick the checkbox to the left of the athlete's name. The list is sorted by surname, or use the magnifying glass to search. Then choose **A Remove From Teams** or **B Archive** at the top.

B Archive

USUALLY BEST

We're **not charged** for archived athletes, and it's much easier to bring them back if they rejoin.

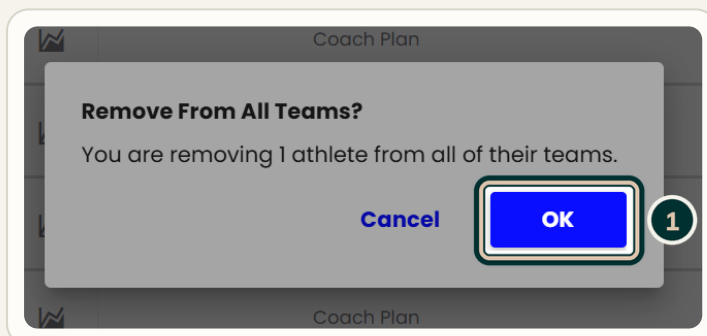

A Remove From Teams

Takes them off **all** of their teams. They stay in the athlete list, showing 0 Teams.

7

Confirm

A popup asks you to confirm. Click **OK**.

That's it

Check the athlete now shows **0 Teams**, or no longer appears in the **Active** list if you archived them.
